County of.....McKean.....:

I, Volney F. Dunbar, of Kane, Pennsylvania, have been Manager of the McCleery Pack of Lobo Wolves during the last year. I have never been bitten by the wolves but have been attacked on several occasions. Shortly after being employed by Dr. McCleery I entered the wolf pen and was getting along successfully with the wolves until I assisted in taking two litters of pups from their dens. The next morning nearly every wolf including those unrelated to the pups met me at the gates of their pens with bristling hair and clashing teeth and would not permit me to enter. I got the pups and returned them that day. The next morning they had all apparently forgiven my transgression. This day of making this affidavit I was threatened by a young male Lobo wolf, 22 months old, when I offered to enter his yard. He bristled and growled and stood at the gate ready to attack me when I was going to open it, but I didn't because of his ferocity.

Sworn to and subscribed
